Technology V10/S2: Cyberbullying and Social Media

Cyberbullying is multiple negative interactions that happen over text, email, messenger, or other social media applications.

Cyberbullying behavior includes posting negative content about a person, sharing personal information, and causing embarrassment.

Cyberbullying can become dangerous, so it's important to know what you can do to prevent or stop it.

How can you stop or prevent cyberbullying?

Be Respectful	Treat everyone with respect always - online or not.
Protect Yourself	Be careful about what you post online. Make sure your parents know about your social media and keep your passwords secret.
Protect Others	Tell an adult if you see someone being cyberbullied. Then be nice to that person.

Where does cyberbullying happen?

Social Media	Online Gaming	Text Messages	Message Boards	Email
Facebook	Twitch	WhatsApp	Reddit	Gmail
Instagram	Discord	FB Messenger	Discord	Outlook
