

Technology V11/S1: Canvas

Canvas is a website used for learning. Teachers can post work, grades, and important information. Canvas was created in 2008.

All the courses are on the “**Dashboard**”. Each course has an icon. Clicking on the icon will bring you to the “Homepage” of the course.

Canvas has a “**To Do**” list to show which work to complete. When the work is completed, it will come off the “To Do” list.

To Do

-  **First assignment**
Psycholinguistics
Mar 27 at 4:01pm |
-  **Introduce Yourself!**
