About OWASP

The Open Web Application Security Project (OWASP) is a nonprofit foundation that works to improve the security of software. The OWASP Top 10 is a standard awareness document for developers and web application security. It represents a broad consensus about the most critical security risks to web applications. This test was conducted based on the OWASP Top 10 guidelines to ensure the highest level of security for the tested product.

This is to certify that the above-mentioned product has successfully passed the OWASP security testing conducted by Xiamen Little Bee Big Data Technology Co., Ltd. The product has been evaluated against the OWASP Top 10 security risks and has met the required security standards.
