Q1: Read the story and answer questions

Discovering Chile: A Land of Wonders

Chile is a remarkable country in South America, known for its incredible landscapes, rich culture and fascinating history. Let's embark on a journey to explore this diverse and beautiful nation.

Geography: Chile's unique geography is one of its most defining features. It stretches over 2,670 miles from north to south but is incredibly narrow, averaging only 109 miles in width. It is often referred to as a "ribbon of land" due to its long, narrow shape. The country is home to a stunning variety of landscapes, including the Atacama Desert, the world's driest desert, and the Andes Mountains, which extend the entire length of the country.

Natural Wonders: Chile boasts some of the world's most breathtaking natural wonders. The Atacama Desert, located in the north, features vast salt flats, geysers and unique rock formations. In the south, you can find the famous Torres del Paine National Park, a UNESCO World Biosphere Reserve, known for its stunning mountains, glaciers and clear blue lakes.

Biodiversity: Chile is rich in biodiversity. The country's extensive coastline is home to an array of marine life, from whales and dolphins to penguins and sea lions. Inland, you'll discover unique ecosystems like the Valdivian rainforest, a temperate rainforest that harbours a wide variety of plant and animal species.

Culture and History: Chile's history is deeply intertwined with its indigenous peoples, Spanish colonisers, and more recently, its immigrants. The Mapuche people, one of Chile's indigenous groups, have a significant cultural influence in the southern regions. Spanish colonisation, which began in the 16th century, has left its mark on Chile's language, religion and architecture.

Chilean Cuisine: Chilean cuisine reflects the country's diverse cultural heritage. Empanadas, pastries filled with ingredients like meat, cheese or seafood, are a popular snack. Traditional dishes include "curanto," a feast of shellfish, meat and potatoes, and "ceviche," a seafood dish marinated in lime or lemon juice.

Economy: Chile's strong economy is driven by industries like mining, agriculture and fishing. The country is the world's largest copper producer, and mining plays a significant role in its economy. Additionally, Chile is one of the largest exporters of fresh fruit, particularly grapes, cherries and blueberries.

Education: Education is highly valued in Chile, with a literacy rate of over 95%. Students typically attend school from March to December. The country has several prestigious universities, including the University of Chile and Pontifical Catholic University of Chile.

Tourism: Tourism is a thriving industry in Chile, attracting visitors from all over the world who want to explore its natural beauty. The country offers opportunities for hiking, skiing and enjoyment of a wide range of outdoor activities. Its capital city, Santiago, is a bustling metropolis with a vibrant cultural scene and a rich history.

Conclusion: Chile is a nation of contrasts, with a geography that ranges from deserts to mountains and a culture that blends indigenous traditions with European influences. Its natural beauty, diverse wildlife and rich history make it an extraordinary place to explore. Whether you're interested in adventure, culture, or history, Chile offers something for everyone. So, pack your bags and get ready to experience the wonders of this incredible country.

1. What does the text say about Chile's copper production?

- A

It is the second largest copper producer in the world.
- B

No other country produces more.
- C

Copper production is not part of the Chilean economy.
- D

Copper production accounts for nearly ten percent of the economy.

2. What is the main language spoken in Chile?

- A

Portuguese
- B

Spanish
- C

English
- D

Chilese

3. Which of the following popular Chilean dishes is made with citrus fruits?

- A

Empanadas
- B

Curanto
- C

Valdivian
- D

Ceviche

4. What is the purpose of this passage?

- A

To inform the reader of factual information about Chile
- B

To discourage the reader from visiting Chile
- C

To compare Chile with other South American countries
- D

To explain to the reader how to make typical Chilean dishes

5. Which of these statements about Chile's geography is not mentioned in the text?

- A

There is a huge difference between the length and width of the country.
- B

There is no other desert in the world drier than the Atacama.
- C

There is a mountain range that spans the whole country.
- D

One of South America's longest rivers runs through Chile.

Instructions

Part 1

This writing is **an informative** text. In this task, you need to show your ability to check and correct writing. It is not about your views or opinions about the topic.

You need to choose sentences, words and phrases from the drop-down menu to fill each of the blanks. You need to think about:

- text type
- language formality
- grammar
- style
- word choice.

You may notice that some sentences contain missing/wrong punctuation or capitalisation. Do not focus on that now. You will work on that in Part 2.

There is **only (1) best** answer for each choice.

Discovering Angkor Thom: A Magnificent Ancient City

Angkor Thom, located in Cambodia is a fascinating city steeped in history and cultural significance. Let's explore this incredible site together.

Built in the late 12th century by King Jayavarman VII, Angkor Thom served as the capital of the Khmer Empire. It was a bustling city, covering an area of approximately 9 square kilometres and housing thousands of residents.

Remarkable Features

One of the most striking elements of Angkor Thom is it's impressive . The city is surrounded by a massive wall and moat, with five monumental gates leading into the city, each one adorned with intricate carvings of gods and demons that represent Hindu .

The City's Essence

The Bayon Temple, famous for its stunning stone faces, features 54 towers, each with four enigmatic faces believed to represent Bodhisattva Avalokiteshvara or King Jayavarman VII himself. Visitors can explore the labyrinthine corridors, and climb to the upper levels for panoramic views of the surrounding landscape.

An Unmissable construction

Another highlightis the Terrace of the Elephants, a grand platform with elaborate carvings of elephants and mythical creatures. This extraordinary structure served as a viewing platform for royal ceremonies and processions

Significant Ruins

Within Angkor Thom are the of the royal palace, which once housed the king and his courtiers. Nearby stands the Baphuon Temple, a massive sandstone pyramid dedicated to the Hindu god Shiva.

Angkor Thom is a testament to the ingenuity and grandeur of the Khmer Empire. As a UNESCO World Heritage Site, it attracts visitors from around the world to marvel at its timeless splendour. Efforts are underway to this national treasure for future generations to come.

1. The Grand Canyon was assisted in its formation by ____.

- A

the state of Arizona
- B

a body of water
- C

another natural wonder

2. Visitors to the Grand Canyon should not expect views of ____.

- A

lofty rock faces
- B

dense natural forests
- C

complex rock patterns and colours

3. According to the lecture, what is one of the most fascinating aspects of the Grand Canyon?

- A

Its sedimentary strata
- B

How young it is
- C

The millions of visitors it gets each year

4. What does the lecture say about the flora and fauna of the Grand Canyon?

- A

There are many different animals but not much plant life due to the lack of rain.
- B

Mountain lions have been known to cause problems for tourists.
- C

There is quite a variety that has evolved to withstand its climate.

5. The lecture fails to mention an activity for visitors that involves riding ____.

- A

a water vessel
- B

a wheeled object
- C

an animal

The Grand Canyon, located in the state of Arizona, USA, is one of the most breathtaking natural wonders in the world. Carved by the mighty Colorado River over millions of years, this awe-inspiring canyon stretches for over (6) kilometres and reaches depths of more than a one and a half kilometres.

Of course, the Grand Canyon's great size and stunning beauty make it a popular destination for tourists and nature (7) from around the globe. This iconic destination promises unforgettable panoramas, showcasing a kaleidoscope of vibrant rock formations, towering cliffs and vast expanses that leave visitors in amazement.

One of the most fascinating aspects of the Grand Canyon, offering a glimpse into the Earth's geological history, is its layers of rock. These reveal a timeline of the Earth's history spanning millions of years. The oldest rocks at the bottom of the canyon date back nearly two billion years, while the youngest rocks near its rim are around 230 million years old.

The Grand Canyon is also home to a diverse array of plant and animal life, adapted to survive in its unique desert environment. Visitors to the canyon may spot mule deer, California (8) and even the elusive mountain lion.

Exploring the Grand Canyon is an adventure like no other. Visitors can hike along scenic trails, ride on mule-back or take a thrilling rafting trip down the Colorado River. There are also several viewpoints and visitor centres throughout the park, where visitors can learn more about the canyon's natural history and cultural (9) .

Whether you're marvelling at the canyon's vastness from the rim or hiking far into its depths, the Grand Canyon is sure to leave a lasting impression on all who visit, (10) splendour and wonder at the power and beauty of nature.

Q4: Two trains start from the same station and travel in opposite directions. One train travels at a speed of 90 km/h and the other at a speed of 70 km/h.

If they start at the same time, how soon will they be 900 kilometres apart?

- A

6 hours
- B

4 hours 30 minutes
- C

10 hours
- D

5 hours

Q6: In the coastal town of Seaview, a grassroots environmental organisation has launched an initiative to clean up local beaches. Armed with gloves, trash bags and determination, volunteers gather every weekend to rid the shorelines of litter and plastic pollution. The initiative not only aims to protect marine ecosystems but also to raise awareness about the importance of environmental stewardship. As word spreads, more residents and visitors join the effort, turning beach clean-ups into community events filled with camaraderie and purpose. Despite the challenges posed by persistent pollution, the organisation remains steadfast in its mission to keep Seaview's beaches pristine for generations to come.

Which of the following MUST BE TRUE based on the information above?

- A

The environmental organisation is run and operated by the heads of the town's local government.
- B

Everybody in Seaview is in favour of the project.
- C

The seawaters around Seaview are benefitting from this initiative.
- D

Too many plastic bottles are thrown away every year.

Q7: In the city of Summitville, a new public transportation system has been implemented to alleviate traffic congestion and reduce carbon emissions. The system includes expanded bus routes and the introduction of electric tram services. Since its introduction, there has been a noticeable decrease in the number of private vehicles on the road during peak hours. However, some residents have raised concerns about the accessibility of public transportation for individuals with disabilities. Consequently, the city council is considering whether the environmental benefits of the new transportation system outweigh the need for improved accessibility. Therefore:

Conclusion 1: The new public transport system has decreased the cost of travelling during peak hours.

Conclusion 2: Some residents of Summitville might be unable to avail themselves of these new services.

Conclusion 3: The city council is satisfied with the overall performance of the new transportation system.

Based on the text and conclusions above, please select the correct interpretation:

- A

Conclusion 3 follows, but Conclusions 1 and 2 do not follow.
- B

Conclusions 1 and 3 follow, but Conclusion 2 does not follow.
- C

Conclusion 1 follows, but Conclusions 2 and 3 do not follow.
- D

Conclusion 2 follows, but Conclusions 1 and 3 do not follow.

Q9: ARGUMENT: Should stores in the USA charge customers for plastic bags to encourage fewer people to use them?

Which of the following is the strongest argument in relation to the question above?

- AIn 2002, Ireland became the first country to impose a plastic bag levy. It led to a 90% drop in use of plastic bags, with one billion fewer bags used, and it generated \$9.6 million for a green fund supporting environmental projects. Therefore, charging people for plastic bags has proven to have a positive effect.
- BAbsolutely! We need to take care of this planet for our kids and their kids. If paying for a plastic bag every now and then will make some people stop using plastic, then yes, I'm all for it. Anyway, how hard is it to remember to take a bag with you? If you forget, paying for a plastic bag is actually more like a fine for your own stupidity!
- CNo way! Inflation has already increased prices so much; don't tell me I have to pay for a bag now too! I think if you spend over \$20, you should get a bag for free, not be made to buy one. Of course, supermarkets would love this! We all know it would just be another way for the big supermarkets to rip people off!
